HEALTH AND SAFETY POLICY

As ENERJİSA ENERJİ A.Ş., paying attention to Health & Safety issues and aiming to be one of pioneering energy companies in the industry and world; through our distribution and sales activities we;

- Adopt Health & Safety as a natural part of our business.
- Aim at improving and sustaining our Health & Safety culture and Environmental awareness.
- Adopt approach principles while performing our activities.
- Comply with our legal and other requirements regarding to Health & Safety.
- Having believed that occupational accidents or occupational illnesses are avoidable, identify all risks, which may deteriorate overall health of employees and take all necessary measures.
- Also considering the good practices in the industry and world, set measureable targets for Health & Safety, regularly review achievements attained, and continuously improve our performance and management systems in this field.
- Ensure that our employees at all levels and our stakeholders participate in all activities with cooperation to improve Health & Safety practices with the support of the Top Management.

We do not compromise on Health & Safety.
